

PUBLICATION LIST: LYMPHOCYTES IN GLAUCOMA

Last update: March 2012

All numbers in this list refer to the 'Publication list' of Josef Flammer.

You can order reprints or PDF-files of these publications by simply e-mailing Ms. Daniela Hauenstein: dhauenstein(at)uhbs.ch.

Please just briefly state the number of the publication in the list when you contact her.

343. O. Golubnitschaja-Labudova, R. Liu, C. Decker, P. Zhu, I.O. Haefliger, J. Flammer. Altered gene expression in lymphocytes of patients with normal-tension glaucoma. *Curr Eye Res* 21:867-76 (2000)
392. O. Golubnitschaja, K. Wunderlich, C. Decker, H. Monkemann, H.H. Schild, J. Flammer. Molecular imaging of perfusion disturbances in glaucoma. *Amino Acids* 23:293-299 (2002)
394. K. Wunderlich, O. Golubnitschaja, M. Pache, A.-N. Eberle, J. Flammer. Increased plasma levels of 20S proteasome α -subunit in glaucoma patients: an observational pilot study. *Mol Vis* 8:431-5 (2002)
423. K. Wunderlich, C. Zimmermann, H. Gutmann, B. Teuchner, J. Flammer, J. Drewe. Vasospastic persons exhibit differential expression of ABC-transport proteins. *Mol Vis* 9:756-61 (2003)
446. K. Yeghiazaryan, J. Flammer, K. Wunderlich, HH Schild, S. Orgül, O. Golubnitschaja. An enhanced expression of ABC 1 transporter in circulation leukocytes as a potential molecular marker for the diagnostics of glaucoma. *Amino Acids* 28(2):207-211 (2005)
447. H. Moenkemann, J. Flammer, K. Wunderlich, W. Breipohl, HH Schild, O. Golubnitschaja. Increased DNA breaks and up-regulation of both G¹ and G² checkpoint genes p21^{WAF1/CIP1} and 14-3-3 σ in circulating leukocytes of glaucoma patients and vasospastic individuals. *Amino Acids* 28(2):199-205 (2005)
452. E. Fasler-Kan, K. Wunderlich, P. Hildebrand, J. Flammer, P. Meyer. Activated STAT3 in choroidal neovascular membranes of patients with age-related macular degeneration. *Ophthalmology* 219:214-221 (2005)
486. O. Golubnitschaja, K. Yeghiazaryan, K. Wunderlich, H.H. Schild, J. Flammer. Disease proteomics reveals altered basic gene expression regulation in leukocytes of normal-tension and primary open-angle glaucoma patients. *Proteomics Clin Appl* 1:1316-1323 (2007)
489. O. Golubnitschaja, J. Flammer. What are the biomarkers for glaucoma? *Surv Ophthalmol* 52: Suppl 2: S155-S161 (2007)
504. M. Mozaffarieh, A. Schötzau, M. Sauter, M.C. Grieshaber, S. Orgül, O. Golubnitschaja, J. Flammer. Comet assay analysis of single-stranded DNA breaks in circulating leukocytes of glaucoma patients. *Mol Vis* 14:1584-1588 (2008)
509. J. Flammer, M. Mozaffarieh, O. Golubnitschaja. Auffälligkeiten von Leukozyten bei Glaukom-Patienten und ihre Bedeutung. In: *Search on Glaucoma* 76-82 (2008)
527. K. Yeghiazaryan, J. Flammer, S. Orgül, K. Wunderlich, O. Golubnitschaja. Vasospastic individuals demonstrate significant similarity to glaucoma patients as revealed by gene expression profiling in circulating leukocytes. *Mol Vis* 14(15):2339-48 (2009)
530. O. Golubnitschaja, K. Yeghiazaryan, S. Orgül, J. Flammer. What are the biomarkers for glaucoma? In: *O. Golubnitschaja, Predictive Diagnostics and Personalized Treatment - Dream or Reality?*, Nova Science Publ. Inc 375-396 (2009)
536. P. Haas, P. Then, A. Wild, W. Grange, S. Zorman, M. Hegner, M. Calame, U. Aebi, J. Flammer, B. Hecht. Quantitative single-molecule detection at ultralow concentrations. *Anal Chem* [Epub ahead of print] (2010)
540. O. Golubnitschaja, K. Yeghiazaryan, J. Flammer. Key molecular pathways affected by glaucoma pathology: is predictive diagnosis possible? *EPMA* [Epub ahead of print] (2010)
561. B. Fan, G. Bordigari, J. Flammer, H.E. Killer, P. Meyer, A. Neutzner. Meningothelial cells participate in immunological processes in the cerebrospinal fluid. *J Neuroimmunol* Jan 18 [Epub ahead of print] (2012)
